- GitLab/Jenkins

EXPERIENCE

June 2019 – Present	Data Engineer, *Discover Financial Services (DFS)* · Currently working as a Data engineer at DFS. Main projects includes on-boarding business users to cloud technologies to help develop pipelines to allow them to access the data that they need using cloud-based tools.
August 2017 – May 2019	System Administrator, *Illinois State University at Administrative Technologies (AT)* · While attending the university, I worked part-time as a Sys Admin for AT maintaining (users, security, app updating, etc.) different apps used throughout the university.
May 2017 – August 2017	System Administrator Intern, *Illinois State University at Administrative Technologies (AT)* · System Administrator role; learned about the various apps the university uses and how to properly maintain and handle security for each app.
